

NACSI Advanced Composite housing solutions are about more than buying and selling houses.

It's about creating a good clean home environment.

An environment where families can live in safety and comfort.

Where deprivations of the past are replaced by modern advancements!

Add-A-Room concept

Meteghan House concept

Arctic Dwelling concept

0880 concept

NACSI Housing solutions embrace modern technology designed to provide greater comfort and structural longevity in homes.

Imagine not having to worry about:

❖ Earthquakes

❖ Hurricanes

❖ Floods

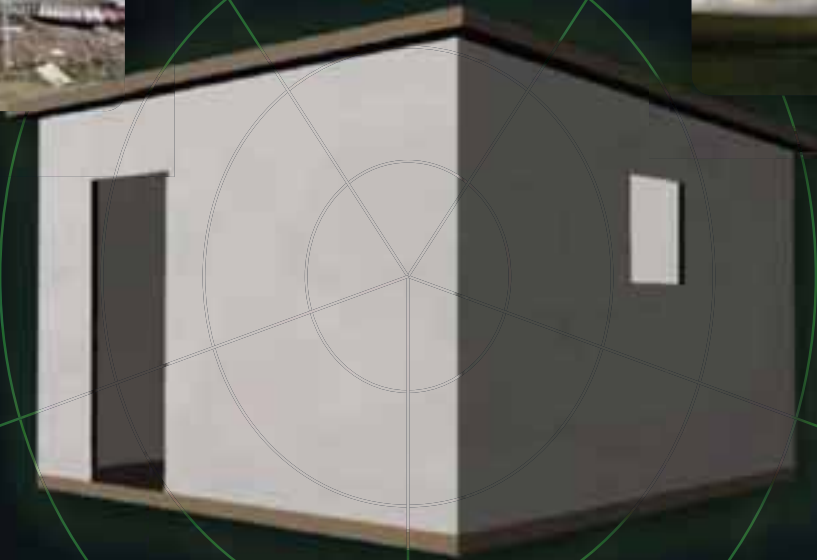

❖ Heavy Rains

❖ or Extreme Heat and Cold

When Disaster Strikes...

Advanced composite structures are ideal solutions for disaster relief efforts or emergency preparedness planning. Earthquakes, Hurricanes, Floods, Heavy Rains, or Extreme heat or cold... NACSI solutions are designed and built to handle tough conditions.

Simple - Efficient - Affordable...

The NACSI "Little House" is 192 square feet of efficiency and practicality! From a single room dwelling to emergency shelters, the applications are as diverse as your imagination.

NACSI Housing Solutions consider the following in their design criteria:

- ✓ **Termite Proof**
- ✓ **Rot Proof**
- ✓ **Low Maintenance** (as much as 90% less than traditional building materials).
- ✓ **Extremely long life cycles**
- ✓ **Easy to handle with only people power** (no specialized equipment required!)
- ✓ **Simple and quick to assemble**

Technologically Advanced, Yet Simple to Build!

NACSI Housing Solutions can range from a simple purchase of pre-engineered panels to adding any one or all of the following:

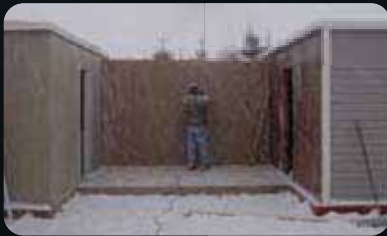

- ❖ **Local training for assembly**
- ❖ **Procurement services for fixtures and interior components**
- ❖ **Infrastructure such as:**
 - **Water**
 - **Sewage**
 - **Electrical Power**
 - **Medical Centre**
 - **School**
 - **Micro-Economic Development Workshops and Retail Outlets**
 - **Meeting Halls**
 - **Model Communities**

Add-a-Room Innovation

The ability to expand to meet changing needs is just one advantage of the NACSI "Add-a-Room" Solution!

Ideal for:

- ◆ Medical Compounds
- ◆ Micro Economic Centres
- ◆ Barracks
- ◆ Schools
- ◆ Offices

NACSI Housing Solutions Create:

- ✓ Local Employment**
- ✓ New Technology Base**
- ✓ Positive Impact Upon the Local
Economy**
- ✓ Excellent Government Profile**
- ✓ Long Term Housing Solutions...**

The Evolution of Shelter

Shelter comes in many shapes, sizes, and materials...

Introducing NACSI... **The Evolution of Shelter!**

NACSI's advanced composite systems offer a safe and affordable solution to the challenges presented by the global housing shortage.

Embracing new and advanced technology is a step in the right direction by joining the global move towards community self-sustainability.

Financing is available to qualifying Nations through EDC (Export Development Canada) up to 100% of all costs including infrastructure.
